PRESIDENT'S MESSAGE

Dear Members,

During the past eight months we have been moving in the desired direction. Our long cherished desire of getting broad-gauge up to Nizamabad is going to be fulfilled by April 2002 as per the Official confirmation by the South Central Railways.

Coinciding with this our town is also sprucing up to with new look and I thank all the members of our chamber who are well behind beautification work of our town. I am proud to say that all the fountains of Nizamabad and the Road dividers, traffic islands etc. have all been contributed by our own Members. Thus the Chamber is in the forefront of developmental activities of Nizamabad and we being members of this organisation are proud of it. The recently concluded 'Indur Utsav' which was celebrated only with the motto of developing Nizamabad and to open up Nizamabad for outsiders was a grand success and the role of the members of the Chamber in making it a grand success is unforgettable.

The enthusiasm and participation by the members in all these activities, shows how anxious we are for the development of our own town. We cannot forget one person in the history of Nizamabad. i.e. Sri G. Asok Kumar, our beloved collector, who changed the scenario of our town with in a short period. We are lucky to have such a Dist. Collector and S.P. Dr. A. Ravi Shanker who are both instrumental in changing the face of our town and motivating all of us towards development of our own town.

Our basic aim is to boost up trade and industry and tourism is one which is coming up as a new industry and I hope that it will absorb most of us. Let us take it as part of our industrial activity and try to encourage and participate in it so that the economic activity of Nizamabad will flourish.

Thanking the builders of Nizamabad town once again.

Yours in Service

D. GOUTHAM

President
